Health & Welfare Benefits Trust

Date: November 1, 2014

To: All Participants
in the Landscape, Irrigation and Lawn Sprinkler Industry
Health & Welfare Plan

From: Board of Trustees

Re: Summary of Material Modifications
New Dental Insurer – Dental Health Services

Effective January 1, 2015, the Board of Trustees has voted to replace Golden West Dental with Dental Health Services as the provider of dental benefits under the Landscape, Irrigation & Lawn Sprinkler Industry Health & Welfare Plan.

The network of providers has changed, so you should check the enclosed Directory of Participating Dentists before visiting a dentist. Although the dental list is updated regularly, you should confirm with the dentist that he/she is still participating before you receive dental services. Starting on January 1, 2015, you will have access to dental services from dentists who are a part of the Dental Health Services Quality Assured provider network.

A completed Dental Health Services enrollment form must be submitted to the Trust Fund Office in order to receive dental benefits.

A Dental Health Services Enrollment form is enclosed and is also available online at www.scptac.org or can be requested by contacting the Trust Fund Office. For additional details regarding Dental Health Services, please visit www.dentalhealthservices.com or contact the Trust Fund Office.
